Policy: In times of local, state, or national emergency or disaster, disaster privileging of external practitioners will be allowed, per the following procedures, in order to help care for an unusually high number of critically ill patients.

Procedure:

1. Declaration of Emergency
   a. The Chief of Staff, the CMO or his/her designee shall declare an emergency once the CEO or his/her designee of Torrance Memorial Medical Center activates the emergency management plan.
   b. The Chief of Staff or the CMO shall determine that Torrance Memorial Medical Center requires additional practitioners to handle its immediate patient care needs.
   c. Volunteer practitioners shall be directed to the Physician Pool, located inside the Medical Staff Services Department/Medical Library on the first floor of the West Tower. Medical Staff Services Department personnel shall manage disaster credentialing activities.
   d. Other priorities shall cease in order to expedite the processing of volunteer practitioners for disaster privileges.

2. Request for Disaster Privileges
   a. A “Temporary Disaster Privilege Request” form (see Attachment 1) (in person, via e-mail, fax, or telephone) by Medical Staff Services Department personnel.
      i. The following items must be submitted with the form:
         a. A valid current government issued ID (for example, a driver’s license or passport)
         b. A current license to practice (if feasible)
         c. DEA certificate (if feasible)
         d. Proof of malpractice insurance (if feasible)
         e. AND any one of the following:
            i. A current picture identification card from a healthcare organization which clearly identifies the professional designation
ii. Identification indicating that the individual is a member of a Disaster Medical Assistance Team (DMAT), the Medical Reserve Corps (MRC), the Emergency System for Advance Registration of Volunteer Health Professionals (ESAR-VHP), or other recognized state or federal response organization or group.

iii. Identification indicating that the individual has been granted authority by a government entity to provide patient care, treatment, or services in disaster circumstances or

iv. Confirmation by a member of the Medical Staff with personal knowledge of the volunteer practitioner's ability to act as a qualified practitioner during a disaster

b. The completed form and required documents shall be provided to Medical Staff Services Department personnel.

3. Credentialing of Volunteer Practitioner

a. The following will be verified / queried, if possible, by Medical Staff Services Department personnel upon receipt of a completed “Temporary Disaster Privilege Request” form:

i. Primary source verification of State license / sanctions through state licensing board (via website or phone).

ii. Current competence (via telephone to active hospital for confirmation of privileges, good standing, restriction of privileges; or by having a current member of the Medical Staff of TORRANCE MEMORIAL MEDICAL CENTER attest to competence through knowledge or personal relationship with volunteer practitioner). This will be documented on the “Temporary Disaster Privilege Request” form.

iii. National Practitioner Data Bank (NPDB) using basic information requested on the “Temporary Disaster Privilege Request” form.

Note: NPDB results will not be required prior to volunteer practitioner exercising disaster privileges, but if information received is cause for concern, the department chair/designee will be notified, which may result in immediate termination of disaster privileges.

iv. Sanctions by the Office of the Inspector General (OIG) and the General Services Administration (GSA).
b. In the event none of the above items are available, the Chief of Staff or CMO or his/her designee at his/her sole discretion may grant disaster privileges.

4. Granting of Disaster Privileges
   a. Upon completion of credentialing process outlined above, Medical Staff Services Department personnel shall notify the appropriate department chief for recommendation to the Chief of Staff, via telephone or other communication. The department chief shall recommend disaster privileges on a case-by-case basis at his/her discretion.
   b. Medical Staff Services Department personnel shall next notify the Chief of Staff or CMO for approval and once approval is received notify the volunteer practitioner. The Command Center will also be notified.
   c. The Chief of Staff or CMO will assign volunteer practitioners to a practitioner currently on the Medical Staff of TORRANCE MEMORIAL MEDICAL CENTER, preferably of the same specialty. “Buddy” practitioners shall immediately report any concern regarding the volunteer’s competence to the Chief of Staff, the CMO and/or the Medical Staff Services Department. The name of the “buddy” will be documented in the volunteer practitioner’s file (temporary credential file). If it is impossible to make such an assignment, medical record review may be considered an option for evaluation of the volunteer’s practice during the disaster.
   d. The Chief of Staff or CMO makes a decision (based on information obtained regarding professional practice of the volunteer) within 72 hours related to the continuation of the disaster privileges initially granted.
   e. In the event that the Chief of the Department is not available, the Chief of Staff, CMO or his/her designee at his/her sole discretion may grant disaster privileges.

5. Identification of Volunteer Practitioner
   a. Once approval of disaster privileges has been granted to the volunteer practitioner, his/her photo will be taken (via digital camera) and he/she will be immediately issued a temporary disaster privileges badge.
   b. The photo will then be attached to the original “Temporary Disaster Privilege Request” form and documentation.
   c. When disaster privileges are granted, the Medical Staff Services Department personnel shall notify appropriate hospital departments (emergency room, surgery, nursing administration, medical records, admissions, pharmacy) immediately (via phone call, e-mail, or other method) of the name and specialty of the volunteer practitioner.
Department: Medical Staff
Policy / Procedure: Disaster Privileges

d. In the event that the Medical Staff Services Department is unable to print a photo badge, the volunteer practitioner will be issued a pre-made Temporary Disaster Privileges Badge. This badge may be worn with the photo ID from another facility if that ID is available.

6. Termination of Disaster Privileges
   a. The Chief of Staff or CMO, at his/her own discretion, may terminate a volunteer practitioner's disaster privileges at any time without cause or reason.
   b. The declaration by the CEO or his/her designee that the emergency is over will automatically terminate all disaster privileges.
   c. Termination of disaster privileges shall not give rise to appeal rights under the Medical Staff Bylaws or any other authority.
   d. Upon termination of Disaster privileges, the Chief of Staff, CMO or his/her designee will reassign patients.

7. Long-term, After-the-Fact Credentialing
   a. As soon as the immediate emergency situation is under control, the Medical Staff Services Department shall verify current competence and licensure for all volunteer practitioners, as if the volunteer were receiving temporary privileges, if not already done so. The Department shall report any irregularities immediately to the Chief of Staff. The Department shall complete credentialing for volunteer practitioners within 72 hours from the time that the volunteer practitioner presents to the organization.
   b. In the extraordinary circumstance that primary source verification cannot be completed in 72 hours (e.g. no means of communication or lack of resources), it is expected to be done as soon as possible. In this extraordinary circumstance, there must be documentation of the following: why primary source verification could not be performed in the required time frame; evidence of a demonstrated ability to continue to provide adequate care, treatment, and services; and an attempt to rectify the situation as soon as possible. Primary source verification would not be required if the volunteer practitioner has not provided care, treatment and services under the disaster privilege.
TORRANCE MEMORIAL MEDICAL CENTER

Department: Medical Staff
Policy / Procedure: Disaster Privileges

Attachment 1
Temporary Disaster Privileges Request Form

In the case of an emergency, any individual who has granted clinical privileges is permitted to do everything possible within the scope of his/her license to save a patient’s life or to save a patient from serious harm, regardless of staff status or privileges granted. The purpose of this form is to ensure that the individual requesting disaster/local emergency privileges is qualified and licensed to provide care.

Last Name ___________________ First ___________________ Middle ________ Degree ________ Specialty ________
