

# Torrance Memorial Medical Center REHABILITATION SERVICES

## Outpatient Speech Therapy

The Speech Pathology Department at Torrance Memorial Medical Center has recently expanded and is now offering a variety of outpatient services to better serve the South Bay community including:

- **Speech therapy services** to serve post stroke patients who have difficulty communicating due to loss of speech and/or language
- **Swallowing therapy** including **VitalStim (neuromuscular e-stim)**, the only electrical stimulation cleared by the FDA to treat dysphagia
- **Head & Neck Cancer**-related speech and/or swallowing issues
- **Cognitive therapy for brain injured** patients to increase abilities in functional daily activities
- **Voice Evaluation & therapy** for patients who present with voice problems
- **Tracheostomized Adults** who require assistance with communication and swallowing
- In collaboration with the Outpatient Radiology Department, we offer **Videofluorographic Swallow Studies** for doctors wanting further evaluation beyond our outpatient clinical evaluation
- **Pediatric Evaluation and treatment** of speech/language delays and disorders
- **Pediatric Feeding/Swallowing** evaluation and treatment

---

Referral information- All evaluations and treatment are performed per a physician's order. Most insurance carriers require pre-authorization for outpatient evaluation.
