

Torrance Memorial Burn and Wound Healing Center

**3330 Lomita Blvd.
West Tower, 5th Floor
Torrance, CA 90505
(310)517-4735**

Torrance Memorial's clinical burn and wound program consists of a multidisciplinary team including physicians who are either general or plastic surgeons, physical therapists, and medical assistants. Our goal is to facilitate and promote healing both physically and emotionally.

Some of the most common diagnoses treated here in the burn and wound center are:

- Arterial ulcers
- Burns of all depths
- Diabetic foot ulcers
- Pressure ulcers
- Surgical wounds
- Traumatic wounds
- Venous ulcers

Our treatment focuses on removing necrotic tissue, promoting angiogenesis, granulation tissue formation, and epithelialization while concurrently addressing the root cause of the wound whether it be pressure, circulation or any other etiology.

We utilize many skills and modalities in assistance of burn and wound closure which may include:

- Multilayer compression therapy
- Sharp debridement
- Maggot debridement therapy
- Total contact casting
- Ultrasound MIST Therapy (low frequency non-contact)
- Negative pressure wound therapy (including VAC)
