

CESAREAN SECTION/INDUCTION PREPARATION CHECKLIST

- COVID Testing 4-5 days prior to procedure** (The lab staff will call you to schedule).
- You MUST self-quarantine** – During the interval between your COVID-19 testing and the procedure, you will need to stay home, separated from others, and limit movement outside of your home. If you experience any COVID-19 symptoms (fever, cough) prior to surgery, contact your physician.
- Day of procedure** – Please arrive at the main entrance of the Lundquist Tower where you will be screened for fever and any signs and symptoms of COVID-19. You will be given a mask and escorted to Labor and Delivery.
- Planning Visitor Communication** – We know it is challenging to be away from family and friends. While you are here, you will be our family and we will make every effort to make sure you are comfortable. To maintain contact with your loved ones, we recommend you bring either a phone, tablet or laptop to communicate with them during your hospital stay. If you are not able to bring your own device, ask our staff and they will provide a device you may use on request.

TOGETHER WE WILL CREATE THE SAFEST
ENVIRONMENT POSSIBLE, FOR ALL OF US.

Thank you for choosing Torrance Memorial Medical Center for your care.
